Care and Maintenance

Table Frame

Hand wash with mild soap and rinse thoroughly with water. Dry with a soft cloth.
Do not use abrasive cleaners or scrub too rough as it may mar the surface.

Table Top

Synthetic wood surfaces are made with UV-stabilizers to minimize fading, however, upon exposure to the sun, all colors will fade to some degree. To minimize possible fading or discoloration: keep product covered, utilize furniture covers where applicable, and minimize direct sunlight by storing product when not in use.

Do not sand or apply any paint, varnish or other coating or chemical to the synthetic wood surface.

Like a natural wood, the synthetic wood surface is susceptible to damage from extreme heat. Do not let heat from external sources such as a barbecue grill, cooking utensils, or pans come in contact with the synthetic wood surface. Leaving glass materials (such as a wine glass) on the tabletop for extended periods of time may cause damage due to light reflection.

Wipe up spills or other foreign substances (such as dirt, grease, oil, etc.) right away to avoid permanent staining.

Do not use under extreme weather or corrosive atmospheres (such as those contaminated by acid rain, harmful chemicals or vapors), or any act of God (such as fire, flooding, hurricane, earthquake, tornado, lightning, ice, etc.), environmental condition (such as air pollution, mold, mildew, etc.)
