Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Обладнання відповідає вимогам Технічного регламенту щодо обмеження використання деяких небезпечних речовин в електричному та електронному обладнанні, затвердженого постановою Кабінету Міністрів України від 3 грудня 2008 № 1057

SteelSeries Products and Australian Consumer Law

Our goods come with guarantees that cannot be excluded under Australian consumer law. You are entitled to a repair, replacement, or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Should your product be defective, you can make a claim under Australian consumer law.

SteelSeries will provide its own remedies equivalent to those remedies in the consumer guarantee provisions of the Australian Consumer Law at any time within 24 months of the date of purchase. For the avoidance of doubt, SteelSeries acknowledges that the Australian Consumer Law may provide for remedies beyond 24 months for a number of its products.

Summary of Australian statutory consumer guarantees

Consumer guarantees in relation to goods

The goods will be of acceptable quality, The goods will be fit for a particular purpose, The goods will match their description, The goods will match the sample or demonstration model, You have title to the goods, You have undisturbed possession of the goods, There are no undisclosed securities on the goods.

Consumer guarantees in relation to services

We will provide the services with due care and skill, The services will be fit for a particular purpose, The services will be provided within a reasonable time.

For SteelSeries-branded goods, in addition to the above, we also guarantee that we will provide repairs or spare parts for a reasonable time. Under Australian consumer law, the remedy you are entitled to if a product fails to meet a consumer guarantee will depend on whether the failure to comply with the guarantee is major or minor.

Minor failures to comply with a consumer guarantee can normally be fixed or resolved in a reasonable amount of time. In this case, the seller can choose to offer you a refund, replacement, repair or, in the case of services, resupply. If the seller does not fix the problem or takes too long, you may be able to get it fixed by someone else and recover the costs from the seller depending on the circumstances.

Remedies for major failure with goods

Return the product and ask for a refund, Return the product and ask for an identical replacement, or one of similar value if reasonably available, Keep the product and ask for compensation for the drop in value caused by the problem.

Remedies for major failure with services

Cancel the contract and pay a reasonable amount for the work done, or seek a refund, For money already paid, keep the contract and negotiate a reduced price for the drop in value of the service — this may mean asking for some of your money back if you have already paid.

For goods, there is a major failure to comply with a consumer guarantee when:

- You would not have purchased the product if you had known about the problem.
- The product is significantly different from the description, sample or demonstration model you were shown.
- The product is substantially unfit for its normal purpose and cannot easily be made fit within a reasonable time.
- The product is substantially unfit for a purpose that you told the supplier about, and cannot easily be made fit within a reasonable time.
- The product is unsafe.

For services, there is a major failure to comply with a consumer guarantee when:

- You would not have engaged the service if you had known the nature and extent of the problem.

- The service does not meet the reasonable expectations for that type of service, and the problem cannot be rectified within a reasonable time.
- You told the supplier that you wanted the service for a specific purpose, which was not fulfilled, and the problem could not be easily rectified within a reasonable time.
- You told the supplier that you wanted a specific result, yet the service and end result failed to meet your specifications and could not be easily rectified within a reasonable time.
- The supply of the service has created an unsafe situation.
